2048 Cardwell Road, Crozier, VA 23039

Represented by *Joyner Fine Properties*

Richard Bower (804) 476-0010

www.RichardBower.com

Leal Description: 150.66 Acres
Price: \$2,900,000
Year Built: 1840's – completely rebuilt in 1987-88
Finished sq ft: Per appraiser, finished sqft is 4,435 with an additional 664 sqft in the garage apartment

This offering also includes a pool complex, a separate cottage, a small utility storage building, a guest house/lodge, a 22-stall horse barn, a stable, and a machine/equipment shop.

The original portion of the Foxwood residence was a rural farmhouse built in the 1840's. In 1987/88 Robert and Faye Kilpatrick completely rebuilt the original, added the wings, moved the existing garage, and created a new personalized residence. The house site is well-landscaped, with about 1.6 acres framed by paddock fencing. Improvements include an expansive lawn, cobblestone lined gravel drive and parking area, brick walks, and a 630 sqft brick terrace. On the property is an approximately 2-acre pond, 3 board fencing, multiple paddocks and pastures, and equestrian and farm improvements.

Exterior Features

- Brick foundation
- Painted redwood clapboard siding
- Slate roof
- Covered front porch
- Wood double-hung insulated windows
- Large brick terrace; small dining terrace outside the kitchen butler's pantry
- Mature landscaping with boxwoods, magnolia, holly, crepe myrtles and evergreens
- Detached utility building 10.7' x 10.7' has a brick foundation, pyramidal slate roof, shiplap siding, cornice brackets, a plywood floor and walls. It is divided into a garden tool room and a small electrical panel closet.

Interior Features

- Plaster and drywall finishes
- Pegged wide plank hardwood flooring
- Fireplaces in eight rooms
- Two-member crown moulding and chair rail throughout most of the first floor
- Attached two-car garage with painted sheetrocked walls and ceiling
- Unfinished basement with mechanicals
- Small utilitarian cellar with a concrete floor houses the furnace and water purification system.

Mechanicals

- 5-zone oil hot water heating system; central air conditioning
- 400-amp circuit breaker system with 200 amp for the garage apartment
- Security system
- Private well and septic systems

Pool Complex

- Inground pool measures 24' x 48'
- Salt generator
- Surrounded by a brick terrace and is enclosed by a brick retaining wall and stately board fencing
- Sitting area under a covered trellis
- Two pavilions 10'7 x 10'7 provide space for changing and housing pool equipment; both have painted clapboard siding and a slate roof; the changing pavilion has a sink, vanity, closet, shower and toilet; the equipment pavilion has an equipment room and a bar with a sink, cabinets and a serving counter that opens to the patio area
- Planting beds

Garage Apartment

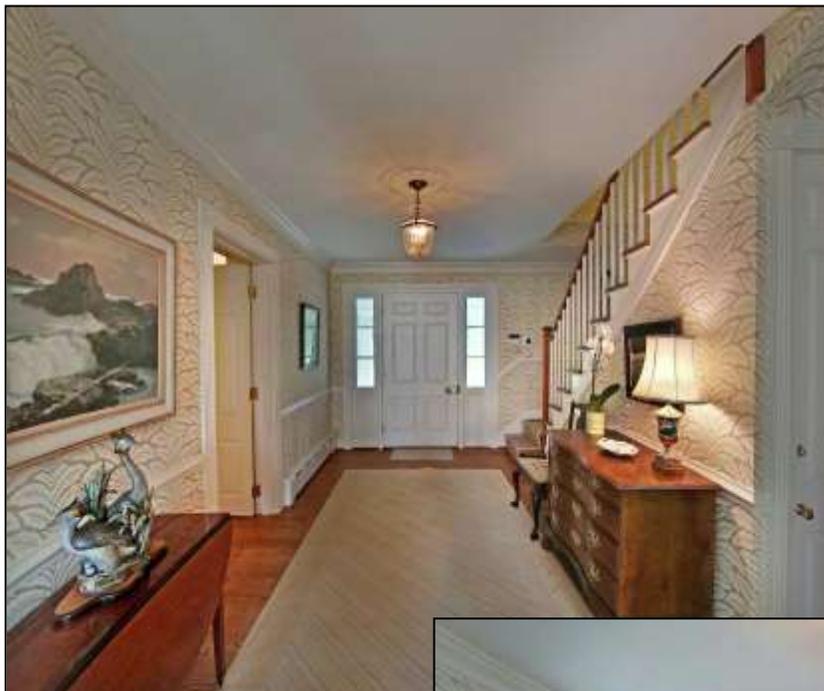

- Separate apartment over the garage is accessible from the interior of the garage and has an outside entrance
- Includes a 19' x 15' sitting room with a kitchenette, a 14' x 10' bedroom, and a full bath
- Heat pump and security system

- 200-amp circuit breaker system

"The Lodge" – Guest House

Located just to the southwest of the main house, the guest house has an elevated site with a good views to the west. It is accessed by a gravel driveway off the main access road. The dwelling was originally constructed in 1976-77 with an addition in 1986-88, and it contains approximately 2,015 square feet.

There is a detached 20' x 12' office with an attached 10' shed. It is a frame structure. The office has a pine floor, lofted ceiling and a heating/AC unit. There is also an old garage with vinyl and plywood siding, a metal roof, and pole structure.

Building Features of the Residence

- Brick foundation with a frame structure
- Cypress and cedar siding
- Wood double-hung windows
- Composition shingle roof

Interior Features

- Pine floors
- Drywall painted or decorated
- First floor living room with dining area, dining or family room, utility room, bedroom and full bathroom
- Off the kitchen is an enclosed mud room with laundry
- Second floor has two bedrooms, a full bath and an office/sitting room
- Kitchen has ceramic tile floors, Corian counters, wood cabinets, a dishwasher, and a range with oven
- Living room has a lofted beamed ceiling and stone fireplace
- Dining room has pine board wainscoting, an a bay window
- The first floor bath has a tile floor, pedestal sink, and a ceramic tile shower.
- The second floor bath has a ceramic tile floor, pedestal sink and a tub with a shower.

Mechanicals

- Two-zone heat pump HVAC
- 200-amp circuit breaker panel

The Horse Barn

This facility was constructed in the 1960's-70's and contains 5,628 square feet, measuring 39.7' x 141.5'. It was used by the previous owner for training and boarding horses.

Building Features

- Cinderblock structure
- Composition shingle roof with copper gutters and downspouts
- Metal casement windows and plywood ceiling
- Sliding barn doors on each end
- Asphalt center aisle
- Located in the approximate center of the building is the tack room and an adjacent kitchenette and toilet
- Electric heat
- Across the aisle is the wash bay with concrete floor and a feed room that provides access to a floored loft that is divided into large storage spaces
- 22 stalls plus a wash stall; stalls each measure approximately 10' x 13.5'
-

Stable

This is an old structure built of post and beam construction with board and batten siding and a metal roof. It is an open shelter across the front with six stalls. A wire cage encloses two of the end stalls. It has 1,591 square feet and measures 12' x 72.3" with a 9.5' shelter extending the entire length. It is currently used for miscellaneous storage.

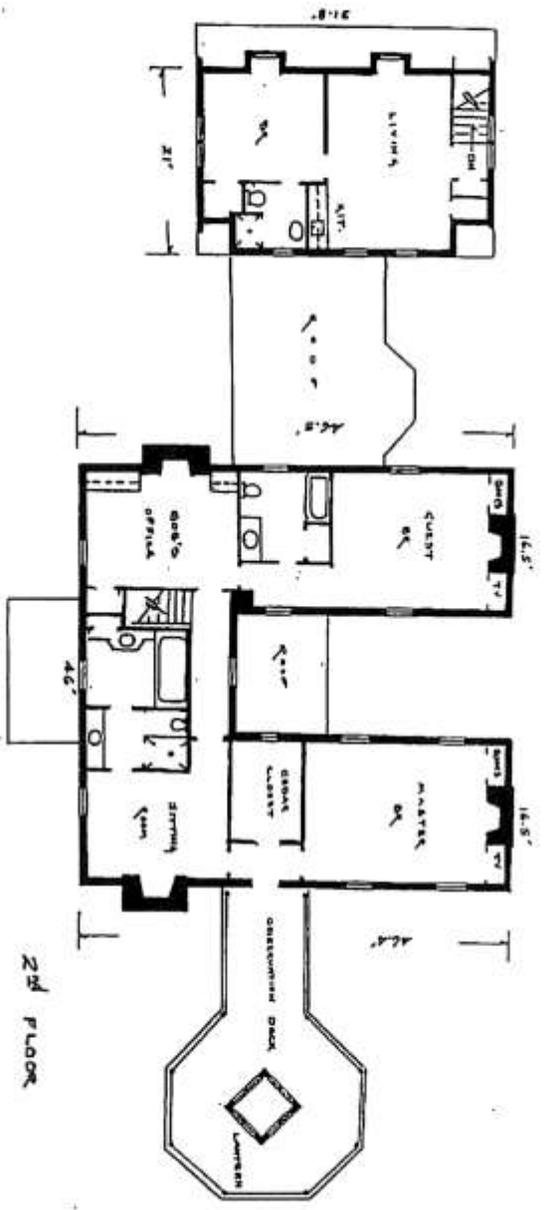

Machinery/Shop Building

This structure was built around 1987-88 and measures 40' x 148' with 5,220 square feet. It is arranged with a shop, five equipment bays, and a storage room. It has a perimeter concrete foundation and a truss roof system with a clear span. Siding is treated board and batten, and the roof is composition shingle with copper gutters and downspouts. Ten skylights provide natural light and two ventilating cupolas provide circulation.

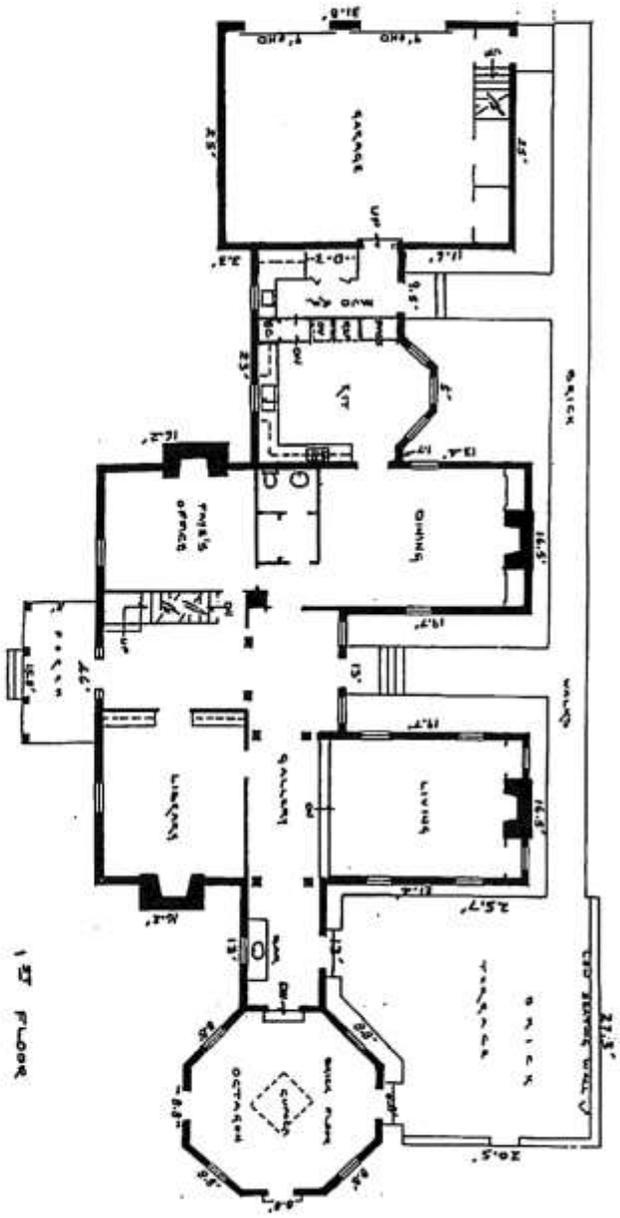

- The shop is approximately 34.5' x 40' and has a concrete floor, plywood walls and ceiling, wall insulation, 16' ceiling height, skylights, 200 amp circuit breaker panel, two ceiling fans and a wood stove; access is provided by two pass doors and a 14' overhead door with an automatic opener
- Adjacent to the shop is the toilet room measuring 9.5' x 10.3'
- At the opposite end is a 20' x 40' storage room with a concrete floor, plywood walls and ceiling, rat wire, and a manual overhead door
- The equipment bays have gravel floors, five manually operated overhead doors, and wooden double-hung windows
- Additional storage is provided above the toilet, shop and storage room

No known defects, but appliances, fireplaces, flues and chimneys convey "as is."
